

## Tailor made seat covers & textile floor mats

## This is CalixKlippan AB ("CKAB")

CKAB is a privately owned Swedish group, which in particular provides the automotive industry with high quality products improving safety, comfort and styling.

The major business is supply of components and sub-systems to the car, truck and bus OEMs supplemented with aftermarket accessories.

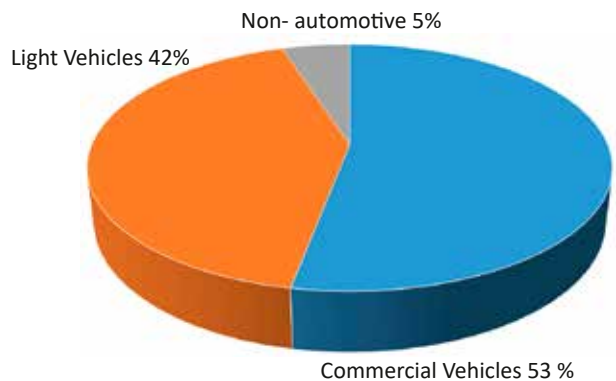

The OEM projects are carried through from product development via industrialization and advanced manufacturing processes to commercial supply.

The products and accessories for the aftermarket are mainly distributed under the Calix and Carbox trade-marks.

# Tailor made seat covers - designed and developed in Sweden

The seat covers are developed within the group by company PeBe AB. All development, measurement and design work takes place at the company's headquarters 70 km south of Gothenburg. The group's own production facility Klippan Safety Polska is located in Stargard, Poland. With an area of 18,000 m<sup>2</sup> and around 350 employees, it produces a wide variety of products such as truck beds, safety nets, vacuum-formed plastic components and textile products such as PeBe seat covers.

## Quality

PeBe AB has more than 35 years of experience in manufacturing protective seat covers. Owners of vehicles for professional use never compromise regarding quality. The seat covers have high quality fabrics which are laminated for best comfort and fit, and produced with strong seams to last for many years.

Our solutions permit the side-airbags in the seats to function properly.

Pattern preparation, specifications of material and sewing are performed by our design experts.

- Non-stretchy fabrics
- Martindale value against wear up to 196.000
- Flame retardant in accordance with VCS 5031.19
- Certified Oeko-tex standard
- Artificial leather certified Reach

## Fitting

The protective seat covers are measured according to every vehicles unique chair. Every chair model is developed with individual specific mounting solutions.

## Comfort

All fabrics are foam laminated for better fitting and comfort. The sit pressure reduces with PeBe seat covers.

## Seat covers for commercial vehicles - a profitable investment

### Tailor made solutions

There might be a need for protection of the seats in a vehicle. Dirty working cloths, tools, etc, and high frequency of usage, wear hard on the upholstery. When the original seat cover is under tough conditions, it gets dirty and maybe also tears apart, the padding in the seat may even be destroyed whereby both comfort and value of the vehicle will decrease.

The solution is tailor made seat covers, mounted in the vehicle preferably when the vehicle is brand new. In addition to the protective effect our seat covers frequently improve the interior look of a vehicle! There are many different types and designs of seat covers in our portfolio.

We develop customer and vehicle specific solutions for the OEMs, all according to the specifications and needs from our customer as regards material, design, function and other requirements.

CalixKlippan solution:

- High quality protective seat covers and materials, not a solution in stretchy fabrics.
- The protective seat covers are measured according to every vehicles unique chair. Every chair model is developed with individual specific mounting solutions.

Tailor made seat cover in combination with strong fabric and artificial leather

## Customized Seat Covers

### Customized Seat Covers

Requirements from customers for one and same vehicle model vary due to different fields of application of the vehicle and affected by:

- Need of temporary or permanent and extent of protection of the seat
- Complexity and frequency of installing and removing the seat cover
- Air bag configuration in the seat
- Cost-benefit analysis

CalixKlippan has a unique experience and competence of working closely together with its customers during more than 25 years in order to find the optimal solutions.
