

## **BUMPER BEAM MOUNTING KIT**

### **Product Description**

When the requirement is for a discreet, secure, and robust install without the need to drill any bodywork, look no further than Lazer's new Bumper Beam Mounting Kit. A universal solution, that is expected to suit almost any passenger car, 4x4, or light commercial vehicle, the brackets offer a neat alternative to a Licence Plate Mount, with the benefit of additional protection from theft.

Included with the kit are a set of 80mm and 120mm bolts to enable the brackets to clamp around the crash bar / bumper beam on different vehicles, regardless of the size/depth of the bar itself.

What's included:

- x1 Bumper Beam Mounting Plates (4-parts)
- x8 M6 x 80mm Bolts
- x8 M6 x 120mm Bolts
- x8 M6 Washers
- x8 M6 Split Lock Washer
- x8 M6 Nuts
